Software engineer based in Northeast Syria with 3+ years of experience building responsive, scalable web applications using Next.js, React, and Node.js. Skilled in creating modern user interfaces and developing efficient APIs and database systems. I focus on delivering real-world, maintainable solutions and collaborating with teams to ship high-quality products. Recently graduated in computer systems engineering (2025) and now seeking opportunities to contribute to global development teams.

Experience

FULL-STACK DEVELOPER - 08/2022 to PRESENT

GOVERNMENT SECTOR- Malikiyah/ Syria

- Engineered and maintained multiple full-stack web applications used by **100+ staff members** across departments.
- Optimized data workflows and automated reporting, **reducing manual processing time by ~30%**.
- Implemented responsive UIs and secure REST APIs with user authentication and **role-based access control**.
- Deployed and maintained production systems on **Linux** servers using **Nginx** and **PM2** for process management.

FREELANCE FULL-STACK DEVELOPER - 2024

LATCHIN GROUP

- Developed a complete **currency exchange web platform** using **Next.js**, **Node.js**, and **SQLite**.
- Built exchange rate views for internal operations, user authentication, and role-based access.
- Designed a responsive, modern interface with **Tailwind CSS**, ensuring flawless desktop and mobile usability.
- Delivered a production-ready app now actively used by the client and **adopted by two additional branches**, expanding its active user base.

Projects

Mingle – Social Media Platform

A modern web application built with Next.js, Prisma, and PostgreSQL, designed to replicate the core experience of major social platforms.

- Developed features for posting, commenting, liking, following/unfollowing, and viewing user profiles.
- Built responsive and accessible interfaces using **Tailwind CSS** and **ShadcnUI**, ensuring a clean and consistent user experience.
- Implemented secure authentication and authorization with NextAuth, optimised API performance, and structured database relationships with Prisma ORM.

Skills

- Languages & Frameworks:** JavaScript, TypeScript, React, Next.js, Node.js, Express.js.
- Tools & Platforms:** Git, Nginx, Socket.io, PM2, Linux, REST APIs.
- Databases:** SQLite, SQL Server, MongoDB, PostgreSQL, Prisma ORM.
- Other:** UI frameworks (Mantine, Shadcn, Tailwind CSS), performance optimisation, and responsive design.

Education

Computer Systems Engineering - Graduated 2025

CORDOBA PRIVATE UNIVERSITY, QAMISHLI
